

## Curriculum Development Intern – Unpaid

Terry Lee Wells Nevada Discovery Museum (The Discovery)

### Description

Reporting to the Curriculum Developer, the curriculum development intern would play a vital role in the museum's mission by developing exciting, hands-on, cutting-edge science curriculum for visitors of a wide age range. The curriculum development intern will play an active role in the development of new activities by completing all of the steps in the curriculum development process including, research, writing, prototyping and revising. The internship will culminate in the writing, with support from the curriculum developer, of a new week-long seasonal discovery camp.

### Specific Duties

- Research for new curriculum
- Writing lesson plans for activities done on the museum floor
- Writing lesson plans for activities done within other programs within the museum.
- Prepare activities
- Prototype and test activities with the general museum visitors.
- Other duties as assigned by the curriculum developer

### Education Requirements

- High school diploma
- Minimum two years working with children or within education.

### Skills Necessary

- Effective time management
- Basic computer skills including Microsoft Office
- Basic science foundational knowledge
- Understanding of learning styles and developmental levels preferred

### Work Characteristics

- Attention to detail
- Ability to work collaboratively and independently
- Flexible and ability to problem solve
- Ability to work 15-20 hours per week

How to apply: Please e-mail resume and cover letter to [vgillette@nvdn.org](mailto:vgillette@nvdn.org).
