MATTER splatter

Take matter into your own hands!

Coming soon to The Discovery!

Explore what matters most!

Matter Splatter invites visitors of all ages to take matter into their own hands. In this inventive, hands-on exhibition, visitors can explore the materials used to produce some of the most advanced technology in existence today. Investigate bio-mimicry, explore conductivity, experiment with non-Newtonian fluids, understand elastic collisions, and so much more!

Whether you want to analyze the properties of metals or just play with ooey, gooey slime, this exhibition focuses on what *matters* most...learning and fun!

Your donation made by May 1, 2020 will help ensure *Matter Splatter* is on exhibit at The Discovery from mid-May through mid-September. *Matter Splatter* will be this summer's must-see attraction!

To donate, please complete the attached form or visit nvdn.org/mattersplatter.
