

Navigating The Discovery

INSIDE OUT *an Anatomy Experience*

Dive deeper into the amazing ways our bodies work, grow, age and heal in this exciting gallery that will take you on a journey through human anatomy.

ENERGY/ENERGÍA

Explore what we know about energy and our potential to shape our future energy economy, through science and technology in this brand new, hands-on exhibition. Now that's powerful learning!

THE SHOP

Hands-on gets serious in this robust tinkering space. Use real tools and materials to create projects you've only imagined.

Da Vinci's Corner

Da Vinci would be right at home in this space where art and science intersect! Experiment with catapults, flying contraptions, refracted light, early movie-making technology, and much more! Give your brain a true test on one any of this exhibition's Brain Teasers.°

Spark!Lab Smithsonian

Explore the process of invention – from initial idea, to prototype, to marketing – and maybe even come up with the World's next big invention in this hands-on lab.

Little Discoveries (5 and under)

The Discovery's youngest visitors will find this gallery to be an engaging place to climb, explore and, best of all, cooperate. They can operate an ore cart and mine elevator, explore a cave, climb a tree, and much more!

Cloud Climber & Truckee Connects

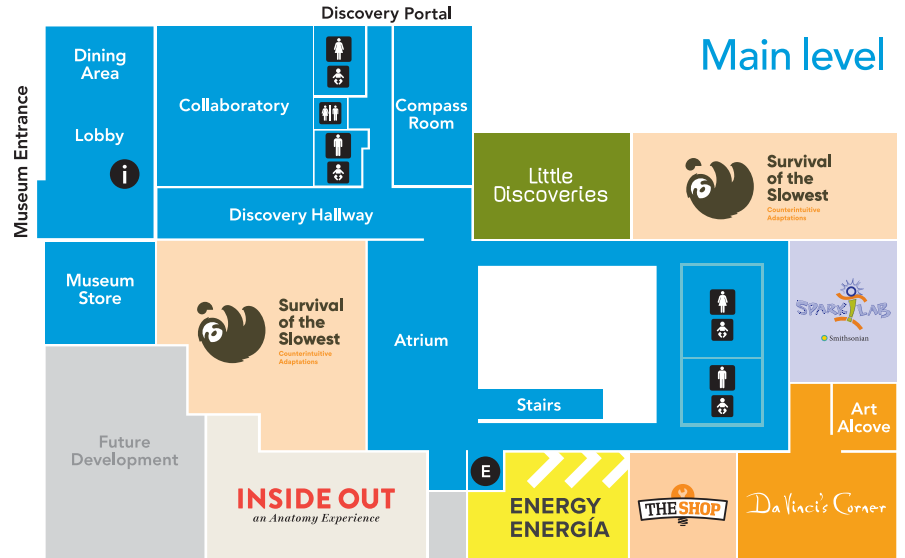

Climb three stories into a model of our region's water cycle and then explore a working scale model of the Truckee River—from Lake Tahoe all the way to Pyramid Lake.

Under the Stars

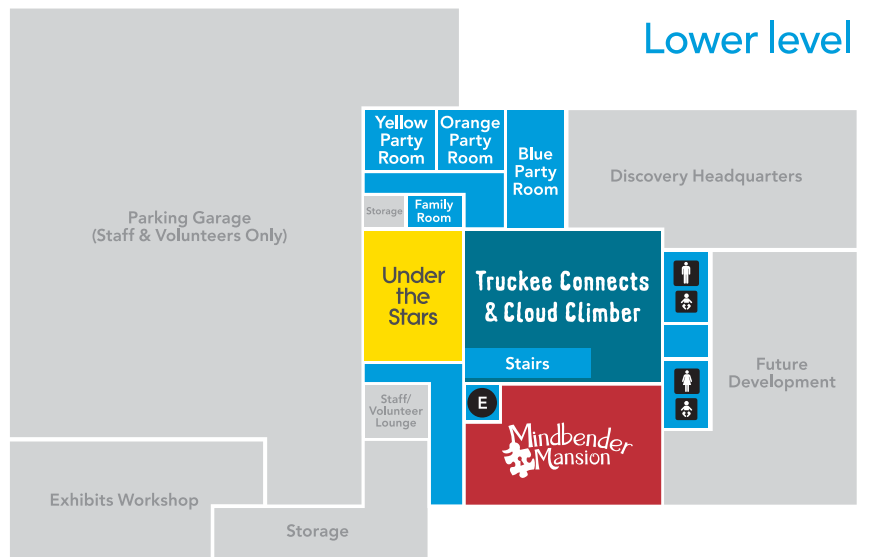

Under the Stars is home to an exciting new exhibition titled Sun, Earth, Universe! Explore planet Earth, the solar system, the universe, and the really BIG questions NASA scientists are trying to answer about the vastness of space.

Mindbender Mansion

Enter the wonderfully puzzling world of Mindbender Mansion, an eclectic place full of puzzles, brainteasers, and interactive challenges guaranteed to test the brain power and problem solving skills of even the most experienced puzzlers.

FEATURED EXHIBITION

Survival of the Slowest

Counterintuitive Adaptations

LEARN HOW THE SLOW SURVIVE

Sometimes being slow, small, or weak can have its advantages! This world-class exhibition will allow visitors to get up close and personal with more than 15 live animals including a two-toed sloth, red-footed tortoise, green iguana, four-toed hedgehog, bearded dragon, ball python, and more!

Survival of the Slowest is on exhibit through January 8, 2023.
